# HOW TO CHOOSE THE RIGHT LAMP

LED lighting solutions come in all shapes and sizes. Choose the right lamp for household and business use. There are many benefits of using the right lighting in office and home spaces. Follow these 5 easy steps to choose the right LED lamp.

**LITEMATE** offers high quality LED lighting perfect to illuminate both businesses and homes alike. We offer a wide range of LED lightbulbs for all your lighting solutions. **LITEMATE** is the ideal cost-effective lighting solution.

**LITEMATE** offers 85% energy saving with a lifespan of 50 000 hours. Available for indoor and exterior use.

Our range is RoHS approved and includes a 5-year warranty.

Ever changing technology in LED lighting is paving the way to new and exciting opportunities. Litemate SMARTHOME WIFI LED can enhance each room in your home or office. Create lighting pre-sets for special mood lighting. All of these lighting pre-sets can be instantly and remotely activated using smart Android and IOS devices greatly increasing home security.

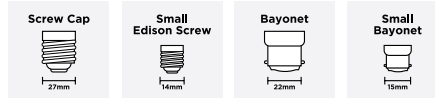

Other Litemate SMARTHOME LED Lamps include 3 in 1 Colour Changing, Dimmable, Rechargeable, Motion Sensor Activation and Day/Night Sensor Activation Technology.

Our lamps LED lamps offer high lumen output, energy efficiencies of up to 90% with a 3 year 30 000 hour lifespan and warranty. Our LED lamps are also environmentally friendly, Rohs compliant and contain no mercury, lead or other hazardous materials.

## DO YOU NEED A NEW LIGHTBULB?

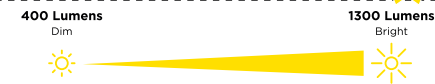

### STEP 1 Know what fit you need

#### Bulb Fitting Guide

### STEP 2 For brightness pick Lumens not Watts

Brightness of light is measured in Lumens (lm) **Look out for this on the box**

EXAMPLE: 1300 Lumens

Same Brightness  
1300 Lumens

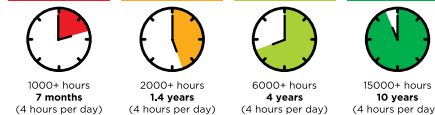

Higher watts uses **more** electricity  
Lower watts uses **less** electricity

### STEP 3 You have new options!

OLD ————— NEW

### STEP 4 Better quality lasts longer

### STEP 5 Quality bulbs save money

Annual cost = Price of bulb + Electricity

Uses More Energy ————— Uses Less Energy

### STEP 6 Choose Green Bulbs!

Green = Less Power Used

### STEP 7 Create your tone/mood

Measured in KELVINS

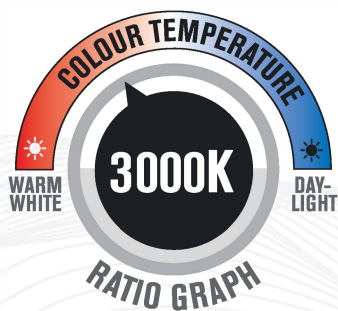

# HOW TO CHOOSE THE RIGHT COLOUR GLOBE

Comparing the wattage or lumens will help determine the brightness of the desired globe. Choosing between warm and cool lighting is also important based on the rooms they are meant for.

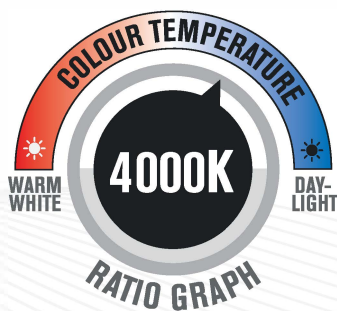

Globe colours are available in warm white, cool white and daylight. The wattage will indicate the energy consumption of the globe and the lumens will indicate the brightness of the globe.

Warm white is best suited for areas like the bedroom and the living room where it is ideal to relax. Cool white is recommended for kitchen and office use. Daylight is ideal for areas such as bathrooms and the garage.

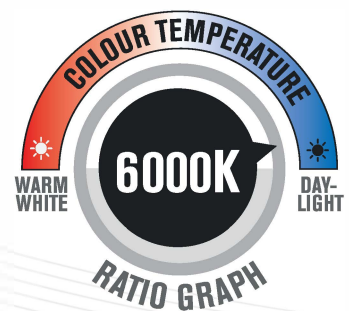

## WARM WHITE

Warm whites are perfect for bedrooms and living rooms as they are less harsh and create a relaxing ambience.

## COOL WHITE

Daylight is ideal for areas such as the bathroom and garage that require bright and white light.

## DAYLIGHT

Cool white is ideal for kitchen or homely settings. Providing enough light with a warmer feel.

### High Powered Lithium Ion Rechargeable Work Lights with USB

litePRO rechargeable work lights provides a range of cost effective high quality portable lighting solutions using the latest state of the art lithium-ion battery technology which lasts up to 5 times longer than any standard battery. Equipped with quality LEDs, litePRO offers bright high lumen output with 3 different power/light modes.

Additional feature includes 2.1 amp USB Output allowing for quick emergency charging of all smart devices. litePRO LED portable lighting provides ultra-light weight, compact and high powered products making them an essential part

of any tool or camping kit. This range is also ideal for portable back-up lighting.

#### Key features include:

- Durable PC casings
- High powered rechargeable lithium-ion batteries
- 2.1 amp USB Output
- 3 Light mode settings
- Magnetic Base
- High Powered Lumen Output

Litepro products have been manufactured and tested to specifications for international distribution. All LITEPRO products have a limited warranty of 1 year from the date of purchase against defects in material and manufacturer workmanship. Damage or injury due to the incorrect application of the product is not covered under warranty.

# SMART SECURE SAFETY TIPS

Security is vitally important to ensure the safety of your loved ones and your business, but making your home and business more secure doesn't have to cost an arm and a leg. The more you know, the more secure you'll be. The Securitymate range is designed with the goal to make the latest security technology accessible, affordable and easy to use with do-it-yourself installation. Below are some paramount safety tips to give you added peace of mind over your home and business.

## ALWAYS APPEAR TO BE AT HOME

Giving the illusion that someone is home is a good burglar deterrent when on holiday or over weekends when business is closed. This can be easily done by keeping a few lights on, installing light timers to go on when needed, or keeping a radio on in the house or office.

## IMPROVE HOME SAFETY BY KEEPING IT BRIGHT

Motion sensor lighting around your home is the best way to surround your property with alert lighting, and is relatively inexpensive. The brighter the lights around your property are and the more you have, will mean the harder it will be for thieves to break into your property.

## DO SOME PRUNING

Large shrubs and tall bushy trees give criminals dark, concealing places to hide without being seen from bystanders, neighbours, and yourself. Keep plants pruned and trimmed or add more motion lighting it is not only a deterrent, but offers more security against surprise attacks when coming home or to your business.

## CLOSE THOSE WINDOWS

Get into the habit of making sure all your windows are securely locked. This will improve home security. Burglars often gain entry into homes through windows or unsure doors. Protect these vulnerable areas with window or door sensors, in order to protect against unwanted trespassers.

## SWITCH IT UP

Alarms are a necessary and effective home security measure, but when last did you change the password? Changing alarm codes regularly will ensure that even if you had previously given the code to a service provider or someone suspicious gets hold of the code, they will not be able to use it to gain access.

great for home & office

- Advanced USB technology
- 4x USB ports including Type -C (30 watt technology)
- 3.1 Amp total USB output
- Non-slip rubber pads
- 2 Year warranty

#### Specification

- Sockets: 1 x 16 Amp, 1 x compact 3 pin
- USB : 3 X USB - A port, 1 X USB type - C port (30 watt PD technology)
- USB output: total 3.1 Amp/5 Volt
- Cable: 1 m (1.5mm<sup>2</sup>)
- Plug: 16 Amp

202mm (L), 65mm (W), 315mm (H) |  0.58Kg

## Z0353 Compact USB Power Hub 4.5 Amp USB

### Features

- Compact desk top design
- Advanced USB technology
- 4x USB ports including Type - C
- 4.5 Amp total USB output
- Non-slip rubber pads
- 2 Year warranty

### Specification

- Sockets: 1 x 16 Amp, 1 x compact 3 pin
- USB : 3 X USB - A port, 1 X USB type - C port
- USB output: total 4.5 Amp/5 Volt
- Cable: 1 m (1.5mm<sup>2</sup>)
- Plug: 16 Amp

202mm (L), 65mm (W), 315mm (H) |

0.52Kg

## Z0354 Compact USB Power Hub 8 Amp USB

### Features

- Compact desk top design
- Advanced USB technology
- 6 x USB ports including Type - C
- 8 Amp total USB output
- Non-slip rubber pads
- 2 Year warranty

### Specification

- USB : 4 X USB - A port, 2 X USB Type - C
- USB output: total 8 Amp/5 Volt
- Cable: 1m (0.75mm<sup>2</sup>)
- Plug: 5Amp

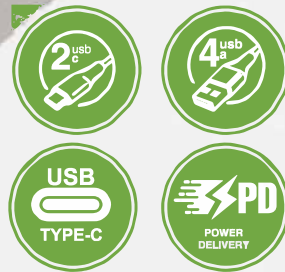

162mm (L), 40mm (W), 105mm (H) |

0.34Kg

## Z0355 Compact USB Power Hub with Power Delivery Technology 6 Amp USB PD-30Watt

### Features

- Compact desk top design
- Advanced USB technology
- 6 x USB ports including Type -C
- 1 x 30Watt PD technology
- 6 Amp total USB output
- Non-slip rubber pads
- 2 Year warranty

### Specification

- USB : 4 X USB - A port, 1 X USB Type -C + 1 x USB type C port 30Watt with PD technology
- USB output: total 6 Amp/5 Volt
- Cable: 1m (0.75mm<sup>2</sup>)
- Plug: 5Amp

162mm (L), 40mm (W), 105mm (H) |  0.34Kg

## Z0347 Compact USB Power Hub 5 Amp USB

### Features

- Compact desk top design
- Advanced USB technology
- 4 x USB ports including Type - C
- 5 Amp total USB output
- High level surge protection
- Non-slip rubber pads
- 2 Year warranty

### Specification

- Sockets: 1 x 16 Amp, 2 x compact 3 pin
- USB : 3 X USB - A port, 1 X USB type - C port
- USB output: total 5 Amp/5 Volt
- Cable: 1 m (1.5mm<sup>2</sup>)
- Plug: 16 Amp quick release

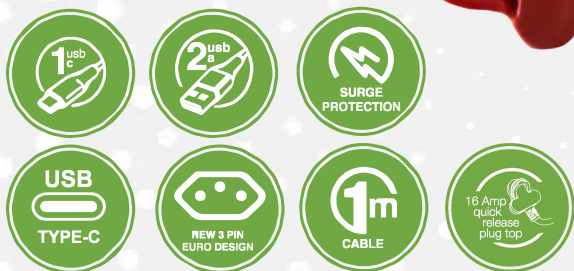

### Non- Slip Pads

- Prevents marking and scratching
- Prevents slipping on hard and smooth surface

250mm (L), 50mm (W), 305mm (H) | 0.601Kg

## Z0348 Compact USB Power Hub with Tablet & Smart Phone Stand 3.5 Amp USB

### Features

- Compact desk top design
- Advanced USB technology
- 3 x USB ports including Type - C
- 3.5 Amp total USB output
- High level surge protection
- Non-slip rubber pads
- 2 Year warranty

### Specification

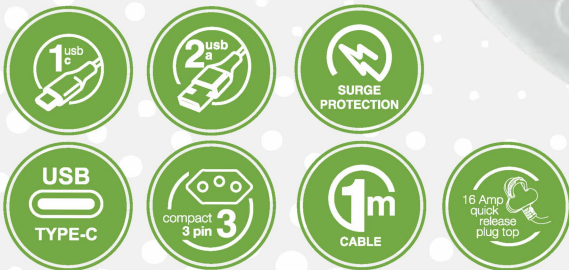

- Sockets: 4 x Compact 3 pin
- USB : 2 X USB - A port, 1 X USB type - C port
- USB output: total 3.5 Amp/5 Volt
- Cable: 1 m (1.5mm<sup>2</sup>)
- Plug: 16 Amp quick release

### Non-Slip Pads

- Prevents marking and scratching
- Prevents slipping on hard and smooth surface

270mm (L), 55mm (W), 365mm (H) | 0.759Kg

## Z0349

### Compact USB Power Hub 3.5 Amp USB Features

- Compact desk top design
- Advanced USB technology
- 3 x USB ports including Type - C
- 3.5 Amp total USB output
- High level surge protection
- Non-slip rubber pads
- 2 Year warranty

### Specification

- Sockets: 3 x Compact 3 pin
- Switch: Illuminated master
- USB : 2 X USB - A port, 1 X USB type - C port
- USB output: total 3.5 Amp/5 Volt
- Cable: 1 m (1.5mm<sup>2</sup>)
- Plug: 16 Amp quick release

### Non- Slip Pads

- Prevents marking and scratching
- Prevents slipping on hard and smooth surface

200mm (L), 50mm (W), 320mm (H) | 0.546Kg
